Subject: ROM Compatibility List **Bulletin No.: 19504**

[ ] Factory Modification **[ ] Field Modification** **[ ] Safety Modification** **[ ] Technical Info.** **[x] General Info.** **[ ] Advanced Tech Info.**	**Applies to:** **ALL MODEL RISOGRAPHS**	**Modification Schedule:** **[ ] TBS** **[ ] Next Call** **[ ] Next PM** **[x] As Necessary**	**Factory Installed _____** **Field Installed _____** **Fitting Time _____**

RISO, Inc. is continuously enhancing the product line and adding options. In some cases, this process requires that ROMs be updated. Depending upon installed options, it may or may not be necessary to change the version ROM(s) installed in the Risograph. Be aware that the latest ROM is not necessarily the best ROM for a particular configuration and in fact, a particular configuration could reguire changing to an earlier version of the ROM(s). Please refer to the attached ROM Compatibility list for current ROM considerations.

Due to the number of ROM versions available, Customer Service will only stock the ROM versions that are currently being shipped in production Risographs. All other ROM versions may be purchased or reburned by the Warranty/Repair Department. Please refer to the notes below for further information.

A history of older model ROMs may be reviewed by referring to TIB-94B (dated 12/5/94). This TIB can be accessed via the Internet as Document 12094. RC and RA information in TIB-94B is current as of March 26, 1998 except the latest RA 4200/4900 ROM is V2.05.

NOTES: (from TIB 94B)

1. Previous ROM versions may be sent in to the Warranty/Repair Department for reburning. Please adhere to the instructions found in TIB 083A (New TIB12083) dated 02/02/95. The **reburn price** is currently **$15.00** per ROM.
2. It is recommended that when upgrading ROMs, the highest **compatible** version is used.
3. No change.
4. No change.
5. No change.
6. No change.
7. The RISO Repair Center announced on March 17, 1998, a program to reburn PROMs, at no cost to the dealer, provided that all stated conditions are met, within 90 days of a TIB release concering new versions of ROMs. For further information, refer to the RISO RepairCenter **PROM REBURN PROGRAM** dated March 17, 1998.
